Acest lucru poate fi usor controlat, iar satisfactia angajatilor poate fi crescuta in cateva momente. Dulapul metalic pentru angajati KACPER 1 Plus organizeaza si ordoneaza perfect spatiul si ofera un spatiu de depozitare convenabil si sigur pentru haine si obiecte personale. Este ideal pentru locuri de munca, ateliere si sali de sport. Caracteristici principale ale dulapului metalic pentru haine: Constructie solida din otel Un compartiment spatios cu un raft superior Doua bare in dulap si carlige suplimentare Inchizator Orificii de aerisire pe usa si suport pentru cartonasele cu numele Montare optionala pe perete Poate fi atasat la alte dulapuri Un dulap indispensabil intr-un vestiar mic Forma simpla si dimensiunile compacte fac din KACPER 1 Plus un dulap pentru personal foarte versatil. Se potriveste perfect in nise si utilizeaza fiecare spatiu disponibil. Poate functiona ca un dulap ingust independent sau ca o extensie a unui set mai mare – dulapurile de sanatate si siguranta KACPER. Piese individuale de mobilier pot fi utilizate pentru a crea configuratii optime pentru un vestiar dat. Depozitare ergonomica si bine proiectata O despartitura imparte spatiul de depozitare in doua compartimente cu doua bare pentru umerase. Acest lucru va permite sa separati eficient hainele de lucru de hainele curate. Hainele agatate pe umerase nu se sifoneaza si sunt intotdeauna la indemana. Carligele ofera spatiu suplimentar pentru articolele necesare, iar raftul superior poate gazdui o geanta, carti si obiecte personale. Partea inferioara poate fi utilizata pentru a depozita o pereche de pantofi de schimb. Un dulap metalic care va rezista ani de zile Dulapul gri pentru angajati a fost conceput pentru a facilita cat mai mult munca de zi cu zi si pentru a spori confortul utilizarii. KACPER 1 Plus isi pastreaza functionalitatea si siguranta complete chiar si dupa ani de utilizare intensiva in mediul solicitant al unui vestiar. Dulap stabil cu montare pe perete Dulapul este fabricat din otel de inalta calitate, cu grosimea de 0,6 mm, ceea ce garanteaza durabilitatea structurii. Acoperirea cu pulbere creste rezistenta la deteriorari mecanice, astfel incat dulapul metalic ramane in stare excelenta pentru o lunga perioada de timp. Mobilierul poate fi fixat pe perete pentru a elimina riscul de rasturnare. Dulap metalic cu incuietoare Incuietoarea montata protejeaza continutul dulapului impotriva furtului si accesului neautorizat. Acest lucru va permite sa depozitati obiecte si documente valoroase fara riscul de a le pierde. Setul include doua chei, care permit utilizarea dulapului de catre doua persoane si asigura securitatea in cazul pierderii uneia dintre chei. Solutii functionale Orificiile de ventilatie din usa asigura un flux constant si eficient de aer, reducand acumularea de mirosuri neplacute si umezeala. Datorita acestei circulatii, igiena este usor de mentinut chiar si atunci cand depozitati haine si incaltaminte murdare in interior. Suportul pentru cartonase de identificare de pe usa imbunatateste organizarea muncii si asigura gasirea rapida a dulapului potrivit, chiar si intr-o sala de personal mare.
