Vestiarele din scoli si gradinite sunt deosebit de dificile. Dulapul scolar BARTUS 2 Plus este perfect pentru orice incapere sociala, permitand depozitarea sigura si confortabila a hainelor, incaltamintei si obiectelor personale. De aceea, este ideal nu numai pentru scoli si gradinite, ci si pentru companii, birouri, ateliere si cluburi de fitness. Caracteristicile principale ale dulapului pentru sanatare si siguranta pentru scoli: Constructie solida din otel Patru compartimente spatioase Fiecare dulap poate fi incuiat Bara pentru haine si raft suplimentar in toate dulapurile Orificii de ventilatie si suporturi pentru cartele de identificare pe usi Optiune pentru montare pe perete Poate fi conectat la alte dulapuri Dulap metalic – spatiu utilizat in mod optim Flexibilitatea dulapului gri pentru sanatare si siguranta este marele sau avantaj. Datorita dimensiunilor sale compacte, poate fi amplasat chiar si in nise inguste si utilizat pentru a valorifica la maximum fiecare colt. Functioneaza bine ca piesa de mobilier independenta sau ca extensie a dulapului BARTUS cu 10 compartimente. Modulele pot fi, de asemenea, combinate pentru a crea seturi care sa raspunda nevoilor si dimensiunilor unui vestiar dat. Un dulap – patru compartimente practice de depozitare Dulapul cu incuietoare este impartit in patru compartimente de aceeasi dimensiune. Fiecare compartiment are o bara pentru umerase si un raft pentru incaltaminte. Hainele agatate pe bara nu se sifoneaza si raman proaspete, iar raftul separa incaltamintea, imbunatatind igiena si mentinand interiorul curat. Ordinea din dulap se traduce printr-un acces rapid si convenabil la toate articolele. Compartimentele sunt amplasate la doua inaltimi, astfel incat persoanele de diferite inaltimi sa le poata utiliza. Un dulap robust pentru cresa si scoala Salile sociale sunt medii solicitante si utilizate intens. In special in vestiarele pentru copii, siguranta de neclintit este deosebit de importanta. Dulapul pentru sanatare si siguranta BARTUS 2 Plus garanteaza stabilitate chiar si intr-un mediu dinamic. Constructie durabila si montare usoara pe perete Dulapul cu compartimente este fabricat din otel de inalta calitate, cu grosimea de 0,6 mm, ceea ce il face extrem de durabil. Acoperirea cu pulbere creste rezistenta la deteriorari mecanice, astfel incat dulapul arata intotdeauna bine. Dulapul poate fi montat cu usurinta pe perete pentru a minimiza riscul de rasturnare. Acest lucru este deosebit de important in vestiarele unde copiii alearga. Compartimente cu incuietoare Fiecare compartiment al dulapului scolar poate fi incuiat, astfel incat continutul este protejat impotriva accesului neautorizat si a eventualelor furturi. Puteti depozita portofelul sau telefonul in dulap fara teama de a le pierde. Setul include doua chei pentru fiecare dulap, ceea ce faciliteaza utilizarea de catre doua persoane si ofera siguranta in cazul in care una dintre ele se pierde. Ventilatie bine proiectata si suporturi pentru carduri pentru un plus de confort Gaurile de ventilatie sunt amplasate in usile tuturor dulapurilor pentru a asigura un flux de aer adecvat si pentru a reduce mirosurile neplacute si umezeala. Aceasta este o solutie utila, mai ales atunci cand depozitati pantofi sau echipament de sport in interior. Etichetele cu nume de pe usi va permit sa gasiti instantaneu un dulap specific, fara riscul de confuzie.
