Dulapul scolar – siguranta si buna organizare a vestiarului

In fiecare vestiar, ordinea si buna organizare sunt extrem de importante. Cele mai dificil de controlat sunt incaperile in care copiii sunt in continua miscare. Dulapul scolar IGOREK 1 Plus este perfect pentru depozitarea comoda si sigura a hainelor, incaltamintei si obiectelor personale. Este ideal pentru scoli si gradinite, precum si pentru companii, ateliere si sali de sport. Caracteristicile principale ale dulapului metalic pentru sanatate si siguranta: Constructie stabila din otel Doua compartimente spatioase Ambele compartimente se pot inchide cu cheie Bara pentru haine si raft suplimentar in fiecare compartiment Orificii de ventilatie si suporturi pentru carduri de identitate in usi Poate fi montat pe perete pentru mai multa siguranta Optiune de conectare la alte dulapuri Dulap metalic ideal chiar si pentru incaperi mici Dimensiunile sale compacte fac ca dulapul pentru sanatate si siguranta sa fie extrem de usor de aranjat si poate fi amplasat chiar si in incaperi mici. Cu un dulap ingust, puteti utiliza cu usurinta fiecare colt si spatiu. Poate servi ca o mica piesa de mobilier independenta sau ca o completare a dulapului IGOREK cu 6 compartimente. Modulele individuale pot fi utilizate pentru a crea configuratii optime pentru nevoile si dimensiunea vestiarului. Doua spatii separate si ergonomice Dulapul scolar gri este format din doua compartimente separate de aceeasi dimensiune. Fiecare compartiment are o bara pentru umerase si un raft la o inaltime de 220 mm. Hainele agatate pe bara nu se sifoneaza si raman proaspete. Raftul separa spatiul pentru incaltaminte, ceea ce imbunatateste igiena si mentine interiorul curat. Spatiul organizat ofera acces rapid si convenabil la toate articolele. Compartimentele sunt situate la doua inaltimi, astfel incat pot fi utilizate de persoane de diferite inaltimi. Dulap durabil pentru gradinita si scoala In vestiarele pline de copii activi, nu exista loc pentru compromisuri. De aceea, dulapul metalic IGOREK 1 Plus a fost creat cu cea mai mare precizie si atentie la detalii. Acest lucru asigura stabilitatea sa chiar si intr-un mediu intens si solicitant. Constructie fiabila si montare simpla pe perete Dulapul este fabricat din otel durabil si rezistent, cu grosimea de 0,6 mm. Acoperirea cu pulbere creste rezistenta la deteriorari mecanice. Suprafata mobilierului ramane in stare buna in timp. Dulapul scolar poate fi fixat pe perete, eliminand riscul de rasturnare. Controlul accesului la dulapul pentru sanatate si siguranta Ambele dulapuri sunt echipate cu un sistem de inchidere care protejeaza continutul impotriva furtului si accesului neautorizat. Prin urmare, puteti pastra portofelul si telefonul in dulap fara riscul de a le pierde. Fiecare dulap este livrat cu doua chei. Acest lucru faciliteaza utilizarea dulapului de catre doua persoane si ofera siguranta in cazul pierderii unei chei. Solutii eficiente pentru un confort sporit Orificiile de ventilatie discrete din usa asigura o circulatie constanta a aerului si reduc acumularea de mirosuri neplacute si umezeala in interior. Acest lucru ajuta la mentinerea igienei, in special atunci cand depozitati pantofi de schimb si echipament de sport in dulap. Etichetele cu nume de pe usi va permit sa gasiti rapid dulapul fara greseli.
