Vei economisi multe minute pretioase si nervi daca atelierul tau este ordonat. Un organizator metalic cu tabla perforata si sertare este o solutie excelenta pentru garajul si atelierul dvs. de acasa sau profesional. Aceasta combinatie va permite sa depozitati toate accesoriile de care aveti nevoie intr-un singur loc. Caracteristici principale ale organizatorului de scule: Design independent Otel carbon durabil acoperit cu pulbere 3 sertare cu o capacitate de incarcare de pana la 30 kg fiecare Picioare de nivelare stabile – reglare de 10 mm Panou lateral perforat Panou perforat optional Potrivit pentru dulapurile Jan Nowak si pentru birouri si bancuri de lucru Depozitare flexibila intr-un organizator de atelier Organizatorul independent ofera doua tipuri de depozitare a sculelor – in sertare spatios si pe o placa perforata. Aceasta solutie inteligenta 2 in 1 va mentine accesoriile ordonate si va ofera acces rapid la sculele de atelier agatate pe placa. Puteti amplasa organizatorul acolo unde aveti cea mai mare nevoie de el – in interiorul unui dulap Jan

Nowak, pe un blat de lucru sau pe o masa. Il puteti muta in alta locatie oricand doriti. Sertare durabile Fiecare dintre cele trei sertare poate suporta pana la 30 kg, astfel incat poate acomoda cu usurinta scule mai grele, seturi de chei si burghie. Glisierile cu rulmenti cu bile asigura o extindere lina chiar si atunci cand sunt complet incarcate si permit accesul fara efort la continut. Sertarele sunt locul perfect pentru obiecte mici, cum ar fi suruburi, biti, bolturi si piese de schimb, care se pot amesteca usor in recipiente deschise. Panouri perforate practice Organizatorul este echipat cu un panou lateral perforat si un panou optional care poate fi indepartat daca este necesar. Ambele panouri accepta accesorii standard pentru panouri perforate (carlige, suporturi, recipiente), astfel incat sa puteti aranja liber sculele si sa va adaptati la cerintele in schimbare. Organizator de scule durabil si sigur Organizatorul pentru atelier este fabricat din otel carbon cu grosimea de 0,6 mm, acoperit cu pulbere, ceea ce ii sporeste rezistenta la deteriorare si coroziune. Chiar si in cazul utilizarii zilnice in conditii dificile, isi pastreaza aspectul estetic. Organizatorul ramane stabil la incarcarea maxima si nu se rastoarna, sporind siguranta in atelier si garaj.
