Organizator cu patru sertare pentru o ordine perfecta

Unelte si piesele imprastiate prin atelier incetinesc ritmul de lucru si provoaca stres inutil. Un organizator metalic cu patru sertare colecteaza toate accesoriile in compartimente inchise, protejandu-le de praf si de pierderea accidentala. Este o solutie practica pentru atelierele de acasa, garaje, ateliere profesionale si birouri, ajutand la mentinerea ordinii si economisind timp atunci cand cautati anumite articole. Caracteristici principale ale organizatorului de scule: Design independent Otel carbon durabil acoperit cu pulbere 4 sertare pe glisiera cu rulmenti Capacitate de incarcare a fiecarui sertar: 30 kg Inchizibil (2 chei incluse) Potrivit pentru dulapuri, birouri si bancuri de lucru Jan Nowak Organizator universal pentru ateliere si birouri Datorita designului sau independent, organizatorul nu trebuie montat pe perete. Pur si simplu asezati-l intr-un loc convenabil – pe o banca de lucru, in interiorul unui dulap Jan Nowak sau sub un birou. Poate fi mutat cu usurinta ori de cate ori este necesar. Picioarele reglabile asigura stabilitate completa chiar si pe suprafete inegale. Sertare durabile Cele patru sertare ofera spatiu de depozitare

flexibil pentru diverse tipuri de accesorii. Fiecare sertar poate suporta pana la 30 kg, permitandu-va sa depozitati in siguranta unelte mai grele, seturi de chei sau burghie, iar piesele mici nu se vor pierde. Glisierile cu rulmenti asigura o extindere lina chiar si la incarcatura maxima si permit accesul fara efort la continut. Incuietoare centrala pentru o mai mare siguranta Organizatorul este echipat cu o incuietoare cu doua chei incluse, care va protejeaza obiectele de valoare si uneltele impotriva accesului neautorizat. Acest lucru este deosebit de util in atelierele comune, garaje sau locuri in care mai multe persoane utilizeaza echipamentul. Sertarele inchise impiedica, de asemenea, acumularea de praf si murdarie. Constructie solida a organizatorului Organizatorul este fabricat din otel carbon cu grosimea de 0,6 mm, acoperit cu pulbere, care asigura rezistenta la deteriorari mecanice si coroziune in timpul utilizarii intensive . Picioarele stabile protejeaza blatul de zgarieturi si impiedica deplasarea organizatorului in timpul lucrului de zi cu zi.
