Organizator de atelier – functionalitate maxima de depozitare Surubelnitele, clestele si cheile care zac pe jos ocupa spatiu pretios pe bancul de lucru si impiedica desfasurarea activitatii. Exista o solutie – un organizator metalic pentru atelier sorteaza eficient uneltele si elibereaza spatiu pe masa. Un astfel de suport de perete functioneaza bine intr-un garaj, intr-un atelier profesional si intr-un colt de bricolaj acasa.

Caracteristici principale ale suportului pentru scule: Otel carbon durabil acoperit cu pulbere

Suporturi pentru 4 scule electrice si surubelnite 2 rafturi cu o capacitate de incarcare de 30 kg

fiecare Tijele solide cu diametrul de 3,6 mm Poate fi montat pe perete (dopuri neincluse) 2

adaptoare pentru panou perforat Compatibil cu anumite dulapuri Jan Nowak Suport pentru scule – montare pe perete sau panou Suportul metalic poate fi montat direct pe perete folosind suruburi standard sau atasat la o placa perforata folosind cele doua adaptoare incluse in set.

Acest lucru va ofera o mare libertate de a va amenaja atelierul si de a-l adapta stilului dvs. individual de lucru si amenajarii interioare. Organizatorul este compatibil cu anumite dulapuri Jan Nowak: LOGAN SZYMON (pe peretele interior din spate) DAREK (pe peretele interior din spate) PAULA MARIUSZ Rafturi si suporturi pentru scule intr-un singur produs Organizatorul pentru atelier se remarca prin versatilitatea sa, care faciliteaza depozitarea comoda a

echipamentelor. Fiecare dintre cele doua rafturi cu o capacitate de incarcare de pana la 30 kg poate sustine diverse unelte si cutii. Suporturile laterale mentin surubelnitele intr-un singur loc, iar patru unelte electrice sunt agatate pe un suport special – perfect la indemana. Un organizator de atelier va permite sa depozitati toate uneltele fara a pierde timp cautandu-le prin camera. Dispunere ergonomica Dispunerea bine gandita a rafturilor si suporturilor faciliteaza accesul rapid la scule, fara a fi nevoie sa va aplecati. Designul deschis va permite sa localizati rapid articolul de care aveti nevoie si va sporeste eficienta. Inaltimea redusa a suportului (210 mm) inseamna ca spatiul de deasupra bancului de lucru poate fi utilizat eficient, fara a fi nevoie sa instalati dulapuri mari. Durabilitatea si siguranta organizatorului metalic Organizatorul este fabricat din otel carbon acoperit cu pulbere, ceea ce asigura rezistenta la deteriorari mecanice si coroziune in conditii dificile de atelier. Sudurile precise se traduc in stabilitate structurala chiar si atunci cand rafturile si suporturile sunt complet incarcate. Sarma de otel cu diametrul de 3,6 mm combina usurinta cu rezistenta, garantand o utilizare pe termen lung fara deformare.
