De aceea, este esential sa planifici bine spatiul si sa gasesti locul potrivit pentru fiecare obiect necesar. Raftul metalic SAM iti permite sa depozitezi eficient uneltele si echipamentele, astfel incat sa le ai mereu la indemana. O organizare mai buna inseamna munca mai sigura si mai eficienta. Nu e de mirare ca raftul SAM este ideal pentru garaje, ateliere si depozite. Constructie din otel vopsit in camp electrostatic Raftul SAM este realizat din otel de calitate, acoperit cu vopsea aplicata electrostatic. Cadrul este din otel ranforsat de 1,1 mm grosime, iar rafturile din otel de 0,8 mm. Acest tip de acoperire ofera rezistenta crescuta la deteriorari mecanice si coroziune. Astfel, raftul face fata chiar si conditiilor dificile din ateliere, mentinandu-si aspectul impecabil in timp. Culoarea antracit ramane intensa si nu se decoloreaza. Rafturi reglabile – flexibilitate maxima Raftul SAM are 5 rafturi metalice pe care poti depozita tot ce ai nevoie in garaj. Inaltimea rafturilor poate fi reglata din 38 in 38 mm, oferindu-ti libertate in aranjarea obiectelor de diferite dimensiuni. Fiecare raft suporta pana la 85 kg – perfect chiar si pentru scule grele. Cadru ranforsat pentru stabilitate sporita Baza solida a raftului SAM este un cadru din otel de 1,1 mm grosime. Chiar si sub sarcina mare, raftul ramane stabil si nu se clatina, reducand riscul de rasturnare – un aspect esential pentru siguranta in garaj. Perforatiile din interiorul cadrului permit fixarea rapida a rafturilor. SAM combina functionalitatea cu un design atractiv. Asamblare rapida fara suruburi Un mare avantaj al raftului SAM este constructia robusta si bine gandita, care

permite o asamblare usoara si rapida. Nu este nevoie de insurubare – suporturile rafturilor sunt dublu nituite si se fixeaza prin imbinare in cadru. Nu ai nevoie de suruburi, saibe sau surubelnita. Toate accesoriile necesare (picioruse, capace pentru cadru si elemente de prindere), impreuna cu un ghid clar de montaj, sunt incluse. Raftul se monteaza rapid si fara efort.
